

LEED Analysis

IsoLayment QT Recycled Rubber Noise Control Floor Underlayment

MR Credit 4 Recycled Content

Kinetics IsoLayment QT products are comprised of shredded and cleaned tire rubber (post-consumer waste) and EPDM flecks, contain a minimum of 94% (QT-F 2mm, 5mm, 10mm & 15mm) and 92% (QT-B 6mm, 10mm, 17mm & 25mm) post-consumer recycled content, and no qualifying pre-consumer content.

MR Credit 5 Regional Materials

These products are manufactured in Lancaster, PA 17601.

IEQ Credit Low Emitting Materials- Flooring Systems

These products contain 0% VOCs.

Possible Credits

- Post-consumer recycled content – MR c4.1 at least 10% of total materials
- Post-consumer recycled content – MR c4.2 at least 20% of total materials
- Regional Materials – MR c5.1 & MR c5.2
- Low-emitting materials – IEQ c3.1 Construction Management During Construction
- Low-emitting materials – IEQ c3.2 Construction Management After Occupancy
- Low-emitting materials – IEQ c4.3 Floor Systems
