1. Z-clips are shipped loose in 2 parts - one flat piece to be screwed into the wall and one piece with impaling prongs to mount into back of panel screws by others. Wall mounted z-clip.

2. Locate z-clips or optional z bar on wall and secure with screws appropriate for wall substrate.

3. Hang impaling clip on the wall-mounted z-clip.

Option: construction adhesive can be placed on impaling prongs.

4. Press panels onto the impaling z-clip and push downward until (firmly) seated.

Panel mounted z-clip placement.

Fabric return.

1" min. ceiling clearance when installed.

Panel back.

Panel mounted z-clip placement.

Panels over 5' high or wide require (6) z clips. Smaller panels require (4) z clips.

Installed panel.
