KINETICS NOISE CONTROL ANNOUNCES NEW DIRECTOR OF OPERATIONS

Dublin, OH, May 18th, 2021- Kinetics Noise Control Inc. is pleased to announce the appointment of John Joerg as the Director of Operations. In this role, John will oversee both the Dublin, Ohio and Oceanside, California facilities and will lead all facets of the operation functional areas including manufacturing, supply chain, facility, safety, and customer service. John brings nearly 20 years of manufacturing and operations management experience and expertise to Kinetics Noise Control.

Prior to joining Kinetics Noise Control, John was the Manufacturing Operations Director, responsible for all functions of operations, for Franke/Serreck LLC in Dublin, Ohio. In this role, he successfully executed several productivity and continuous improvement efforts, training/maintenance programs, and led the implementation of a global ERP system to provide the basis for operational success under his leadership. Prior to this role, John held operational positions of increased responsibilities in multiple industries, from Machine Plant Manager, Project Engineer, and Operations Manager, in both high volume and low volume/high mix environment. His knowledge in greenfield, expansions, building organizations, and process-improvement strategies has provided him a wealth of experience to draw from as he transitions into his new role.

"John's commitment to the betterment of his team, his tangible leadership approach, and desire to work across the whole of the entity to deliver outstanding results for the business was clearly evident," notes Charles Merrimon, President of Kinetics. "I am confident he will bring these same qualities to Kinetics and prove critical to accelerating our growth and exceeding our customer's expectations."

About Kinetics Noise Control

Established in 1958 as industrial consultants focused on controlling sound and vibration, Kinetics now produces the industry's largest selection of products and solutions that control airborne noise, isolate structure-borne vibration, enhance room acoustics, create quiet spaces, and restrain non-structural building systems.

About Catalyst Acoustics Group

Catalyst Acoustics Group is the parent company of an elite group of acoustic, seismic, vibration and noise control companies that together, offer the broadest portfolio of noise control solutions in the market today. The independent brands, channels to market, products and services offered by each business remain unique, while leveraging the scale, deep functional expertise, broad channel reach and significant financial resources.
