

SportsBoard Elite

ACOUSTICAL WALL PANELS

SPORTSBOARD ELITE IS THE CHOICE WHERE EXCEPTIONAL DURABILITY IN DAMAGE-PRONE AREAS IS REQUIRED IN CONJUNCTION WITH AN ATTRACTIVE FABRIC FINISH. ELITE PANELS KEEP THEIR GREAT APPEARANCE AFTER HARD IMPACTS FROM BASKETBALLS, VOLLEYBALLS, AND EVEN BASEBALLS!

SportsBoard Elite is the ideal solution for reverberant noise control problems in high traffic or abuse-prone areas. These panels withstand heavy impacts without damage.

SportsBoard Elite is constructed from 6-7 PCF fiberglass board, 1/16" perforated copolymer facing, and covered

with your choice of in-stock fabrics from Guilford of Maine or factory-approved, customer-selected fabric. Available in widths up to 48" and heights up to 120".

Perfect for application in gymnasiums, schools, recreation centers, hallways, corridors, or other areas where panels must stand up to impact and abuse.

SportsBoard Elite / Acoustical Wall Panels

DESCRIPTION

The ultimate abuse resistance in a fabric covered copolymer faced acoustical panel

FIRE TEST DATA

Class A per ASTM E84

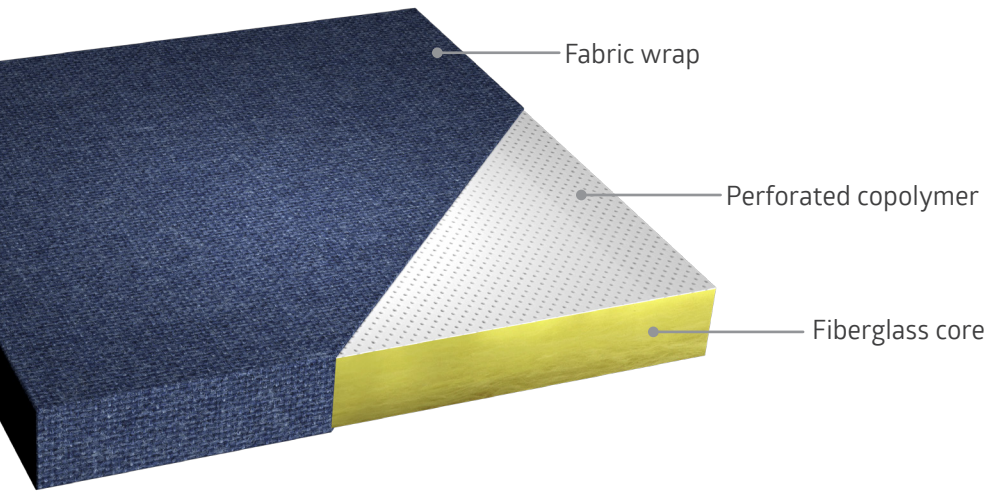

ACOUSTICAL PERFORMANCE

Sound Absorption per ASTM C-423, Type A Mounting

Frequency (Hz)	125	250	500	1K	2K	4K	NRC
1" Thick	0.06	0.36	0.86	1.10	1.05	0.91	0.85
2" Thick	0.33	0.93	1.16	1.14	1.08	0.98	1.10
3" Thick	0.68	1.05	1.19	1.22	1.15	1.02	1.15
4" Thick	0.80	1.14	1.26	1.26	1.19	1.05	1.20

COMPOSITION

- 1" or 2" thick 6-7 PCF density fiberglass core
- 1/16" thick perforated copolymer laminated to the core
- Wrapped in standard in-stock fabric from Guilford of Maine or factory-approved customer-selected material

APPLICATIONS

- High traffic / abuse-prone areas
- Schools and universities
- Multi-purpose rooms
- Lobbies and corridors
- Gymnasiums
- Recreation centers

MOUNTING

- HardSide impaling clips with adhesive
- Z-Clips (movable)
- Velcro (movable)
